Make a positive investment in your career

Our effort is to keep your costs affordable, refundable and even recoverable.

Only the 1st instalment (€100) you pay us is non-refundable. The 2nd instalment (€2,400) is not charged until your university admission and visa go through. So the risk is affordable.

To recover your costs, we try and work together to secure various government grants and bursaries ranging €600 to €900 per month for you. The government bursaries are disbursed into student's Italian bank accounts each month for the duration of the degree program. Alongside, you are entitled to scholarships and tuition waivers. This will more than cover your expenses, including the fee you paid us, and travel, within your first few months of landing in Italy.
